## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

**SUMMARY OF CHANGES**

## SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

AMENDMENT 0001

e. Pre-Proposal Minutes:

## Memorandum for Record

Location: Fort McCoy, Wisconsin – Bldg 1255

Purpose: Pre-Proposal Meeting

Project: Battle Simulation Center, P/N 11044

Time: 12:00 PM-3:00 PM (Local Time)

Date: May 12, 2004

Attendance: See Sign-in Sheet (Separate Document)

Mr. Braden opened the meeting by introducing himself as Project Manager and welcoming the Contractors to Fort McCoy and requested that they sign-in if they had not done so previously. Mr. Braden identified MAJ San Nicolas as the customer/owner POC representing ACSIM-AR and noted that other members of the panel would be introducing themselves shortly. He outlined that the meeting would consist of an abbreviated project/solicitation briefing, an opportunity for the Contractors to submit questions and a short site visit. Mr. Braden stressed that there is a significant difference between Government representatives who have project management or oversight responsibilities on a project and those that have Contracting Officer authority. For example, Mr. Braden noted that although he is the Project Manager he has no authority to change the terms of either a Design or Construction Contract once awarded. He asked that the Contractors pay special attention from who they are receiving information/direction in this regard. For purposes of this solicitation, all questions/information should go through Ms. Anderson, the assigned Contract Specialist.

Mr. Braden followed this by elaborating on the subject project. He noted that the Battle Simulation Center is a FY04 Congressional Add MILCON Project. The significance of the project being in the FY04 Program is that the Government intends to have a contract awarded for construction prior to the end of FY04 or 30 September 2004. The solicitation is a Request-for-Proposal (RFP) for a Design-Build Contract, the details of which will be addressed further by the Mr. Probst (PE/A) and Ms. Anderson (Contract Specialist).

He then briefly described the organizational structure related to the subject project as follows since the Army Reserve Program is organized slightly different than traditional active Army MILCON projects:

Louisville District provides overall Project Management and Design Management (in this case RFP preparation and design review) for this project.

Omaha District provides Construction Management Services that include Contract Administration and Inspection/Quality Assurance.

At this point Mr. Braden asked the panel to introduce themselves (see sign-in sheet) and turned the meeting over to Mr. Probst.

Mr. Probst introduced himself as the Project PE/A or A-E Design Contract Manager for the Government. He noted the following important dates:

May 12	Pre-proposal meeting
May 24	Scheduled amendment date to include meeting minutes of this conference
June 3	Proposal due date

Mr. Probst mentioned that Section 00150 addresses design submittals in outline format by listing a notional schedule. He suggested that Contractors might begin the process of familiarizing themselves with the RFP by reviewing Sections 01010 (Summary of Work) and 01020 (Statement of Work), then the remainder of the RFP documents.

In Section 00800, he identified that the Contract Period of Performance is 540 days and that the Liquidated Damages are \$800/calendar day.

He also noted that the RFP documents address the minimum quality requirements, criteria (latest version to be used), applicable UFCs, and design freedom parameters. He then briefly discussed the training systems (EST, Guardfist, and BBS/BCBST) to be housed in this facility. These systems are Government furnished and Government installed. However, the RFP contains detailed information about each system so that they may be accounted for in the building design. In addition to the Base Bid, the RFP contains six options and provisions for betterments. Although, furniture design and layout is part of the RFP requirements, the actual furniture procurement and installation will be performed by the Government.

Section 01021 anticipates a two-step Construction NTP process where the Contracting Officer would issue a partial NTP for site development activities once those design details had been submitted, reviewed and approved in advance of the remaining features of work. It should also be noted that Dr. Checks, an Internet-based Government Design Review software will be used by both the Government and Contractor to reconcile and track design review comments.

Mr. Probst also noted that the Government will issue some minor text changes as part of a planned Amendment to be issued on or about May 24<sup>th</sup>.

At this point Mr. Probst turned the meeting over to Ms. Anderson. Ms. Anderson noted that this is a Full and Open procurement. However, it does include a Hubzone preference where 10% is added to the price (FOR EVALUATION PURPOSES ONLY) of any proposals submitted by non-Hubzone Contractors.

Ms. Anderson reminded everyone of the requirement to submit an original and 6 copies of their proposals. All questions should be submitted by FAX or Email. Ms. Anderson's phone number can be found in LCL-40002 of the RFP. Ms. Anderson also explained that Section 00115 identifies what the Government will evaluate while Section 00130 identifies how it will be evaluated.

At this point the panel took formally submitted questions from those in attendance. Those questions and answers follow in no particular order.

Q. Site plan shows a "Hot Tap" connection. Does Fort McCoy allow this?

A. Yes, Fort McCoy will allow a connection as shown in the RFP plans.

Q. What should be done about the spec sections (2-16) that do not seem to apply to this project such as the bridge crane?

A. These specifications are outline specifications intended to cover a gamut of Army Reserve facilities. Ignore, if not applicable.

Q. Will price consideration be given from bid date to Contract Award to cover volatility in the Steel market?

A. No. The relatively small amount of steel in this project and anticipated short duration between the activities mentioned do not merit the inclusion of an "Equitable Adjustment" clause or other measures.

Q. What are the dashed lines that divide Room #122?

A. Although one end of the room does have a partition wall for storage of tables and chairs, the dashed lines represent organizational cells for the BBS/BCBST training activity. There is a furniture layout in the RFP that also illustrates this "grouping".

Q. Can the bid opening be moved to La Crosse, WI?

A. No. All proposals shall be submitted to the Louisville District Corps of Engineers for consideration.

Q. Is this a Hubzone Set-Aside?

A. No. It is Full and Open.

Q. Will the budget be revealed so that Betterments may be considered?

A. No. The project price range is \$1,000,000 to \$5,000,000.

Q. What Items are to be submitted with the proposal?

A. Items to be submitted are identified in the RFP. These include a signed 1442 with all amendments acknowledged, Proposal in accordance with Section 00115, Reps and Certs, and Price (Bidsheet).

Q. How does the Buy American Act affect the project?

A. The Buy American Act restricts the origin of materials that are incorporated into the permanent construction to certain countries. Please refer to the specific version of this clause in the RFP for further direction.

Q. Is there a list of Government furnished items?

A. No. Government furnished items are delineated throughout the RFP documentation. The Government will be furnishing the "Simulation Equipment" and furniture.

Q. Can the Geo-tech firm used in the RFP preparation be used by the Contractor?

A. No.

Q. Can any of the sub-consultants or A-E be used by the Contractor?

A. No.

With no more formal questions, the group conducted a brief visit to the site and adjourned.

The following are additional changes:

f. Delete Proposal Schedule in its entirety, and replace with attached revised Proposal Schedule. The changed text is highlighted in bold.

g. Add the following paragraph to Section 01020 – Statement of Work:

1.8.2.8.6 – Provide one white-board and three bulletin boards, each eight feet wide by four feet high. Coordinate locations in room and mounting heights with Use

h. Delete paragraph 6.2 of Section 01020 – Statement of Work, in its entirety, and replace with the following revised paragraph:

6.2 **GENERAL CONSTRUCTION REQUIREMENTS.** The Battle Simulation Center shall be designed and constructed with foundations supporting steel frame construction. On-grade floors will be poured concrete, and the exterior wall system will be masonry bearing **or non-bearing** wall with insulated cavity, brick veneer, **and CMU back-up.** Exterior openings shall receive steel or aluminum frame door systems, steel or aluminum windows, or aluminum curtainwall – provide operable windows at offices and other typically occupied spaces, unless noted otherwise. The Contractor is encouraged to develop an attractive exterior design, and will be permitted to use accents of varying brick, precast concrete, stone, tile, metal or translucent panels for exterior expression. The roof will be a sloped, non-structural standing seam metal roofing system (NSSSMRS). Structure may be joist or joist and purlin system. Provide multiple adhesive-attached "fingers" to break up snow and ice in two locations in each span of roofing. Gutters and downspouts shall be provided with heat tape.

- i. Delete paragraph 6.a in “Products” section of Specification Section 07412 in its entirety, and replace with following paragraph:

Rigid Board Insulation for Use Above a Roof Deck: Polyisocyanurate: Polyisocyanurate insulation shall conform to ASTM C 1289, Type I, Class 2 (having a minimum recovered material content of 9 percent by weight of core material in the polyisocyanurate portion.) For impermeable faced polyisocyanurate (Ex: aluminum foil) the maximum design R-value per 1 inch of insulation used shall be 7.2.

- j. Delete Drawing L1.1 and replace with attached revised Drawing L1.1, showing landscaping Bid Option D.
- k. Add the following sentence to Section 01021 paragraph 3.4.2.1: ER 1110-1-8159 can be found at the following web address:  
  
<https://www.projnet.org/projnet/home/version1/index.cfm>.
- l. Delete paragraph 3.5.4 from Section 01021.
- m. Delete the phrase “in Appendix 8” from the first line in Section 01021, paragraph 3.6.6.
- n. Delete the 4<sup>th</sup> and 5<sup>th</sup> sentences beginning and ending with the words “The specifications included in this RFP ... consist of the important features of the product” from paragraph 3.7.1 of Section 01021.
- o. Delete the phrase “copy attached at the end of this section” contained in parentheses in the 1<sup>st</sup> sentence of paragraph 3.9.2 of Section 01021 and insert the following phrase in its place: “Attachment I to Section 01020.”
- p. Reference is made to Section 01451A paragraph 1.1. ER 1110-1-12 Quality Management can be found at the following web address: <http://www.usace.army.mil/inet/usace-docs/eng-regs/er.htm>.
- q. Delete the phrase “Section 0133 SUBMITTAL PROCEDURES” from the 1<sup>st</sup> sentence of paragraph 3.5 of Section 01451A and insert the following phrase in its place: “Section 01331 SUBMITTAL PROCEDURES FOR DESIGN/BUILD.”
- r. Replace the original bid schedule with the attached revised bid schedule.
- s. All other terms and conditions remain the same.

(End of Summary of Changes)

Battle Simulation Center

Fort McCoy WI  
**TOTAL BASE BID PLUS OPTION BID**

W912QR-04-R-0021  
Amendment 1  
\$ \_\_\_\_\_

**NOTES FOR PROPOSAL SCHEDULE**

1. To better facilitate the receipt and proposal process, all modifications to proposals are to be submitted on copies of the latest proposal schedules as published in the solicitation or the latest amendment thereto. In lieu of indicating additions/deductions to bid items, all bidders should state their revised prices for each item. The company name should be indicated on the face of the proposal schedule to preclude being misplaced.
2. Bidders must insert a price on all numbered items of the Proposal Schedule. The price may be zero dollars or a deduct amount. Failure to do so will disqualify the bid.
3. Attach a separate sheet describing each Option and Betterment, with the Option Items keyed to the Bid Item Number, and providing sufficient information for the Government to evaluate the quality and quantity of the Option or Betterment being offered.
4. If a modification to a bid is submitted which provides for a lump-sum adjustment to the total estimated cost, the application of the lump-sum adjustment to each unit price and/or lump-sum price in the bid schedule must be stated or, if it is not stated, the bidder agrees that the lump-sum adjustment shall be applied on a prorata basis to every bid item in the bid schedule.
5. **CONDITIONS GOVERNING EVALUATION OF BIDS AND AWARD OF CONTRACT.**  
One contract only will be awarded on this project and evaluation will be made on the Total Base Bid Plus Option Bid, in accordance with the paragraph entitled "Evaluation Of Options " in the Instructions to Offerors.  
  
The Government may require the delivery of the numbered line items, identified in the schedule as option items, in the quantity and at the price stated in the schedule. The Contracting Officer may exercise the option by written notice to the Contractor within 180 days of Notice to Proceed.
6. Description of Bid Items - The general outline of the principal features of each item as listed below does not in any way limit the responsibility of the bidder for making a thorough investigation of the drawings and the specifications to determine the scope of work including each item of the bidding form. Further descriptions of the Options may be found in paragraph 1.9.1 of the Statement of Work.

**Description of Base Bid Items**

- (a) Item No. 0001 "Primary Facilities – Battle Simulation Center" includes all Base Bid construction work required within a line five feet outside of the building, except that work covered by Items No. 0003 and 0005.

- (b) Item No. 0002 “Sitework” includes all Base Bid demolition and construction work required within a line five feet outside the building, except that work covered by Items No. 0004 and 0005.
- (c) Item No. 0003 “Operations, Maintenance – Army Reserve (OMAR) funded items” includes all work required to furnish and install “OMAR funded” items; items which are not permanently attached to the construction. OMAR equipment is to be contractor provided and installed, unless otherwise noted in this RFP – see Section 01020, paragraph 6.6.1.

OMAR funded equipment for this project consists of:

- some Miscellaneous Specialties (specification section 10530)
- Residential Equipment (specification section 11450)
- Window Treatments (**specification section 12500**)

- (d) Item No. 0004 “NPDES permit” includes the costs of obtaining an NPDES permit from the Wisconsin Department of Natural Resources.
- (e) Item No. 0005 “Project design fees” includes the fees for the Offerors’ design professionals to complete the Base Bid design and construction documents for the project.

Description of Option Bid Items

- (f) Item No. 0006 “Option A - Provide four to six inch raised computer flooring in Rooms 122 and 123” includes all design and construction costs associated with this option. See Notes 3 and 6 above.
- (g) Item No. 0007 “Option B - Provide communication connections for exterior TOC area.” includes all design and construction costs associated with this option. See Notes 3 and 6 above.
- (h) Item No. 0008 “Option C1 – Provide asphalt paving at POV” includes all design and construction costs associated with this option. See Notes 3 and 6 above.
- (i) Item No. 0009 “Option C2 – Provide asphalt paving at service drive” includes all design and construction costs associated with this option. See Notes 3 and 6 above.
- (j) Item No. 0010 “Option D – Provide additional landscaping” includes all design and construction costs associated with this option. See Notes 3 and 6 above.
- (k) Item No. 0011 “Option E – Provide additional roof form” includes all design and construction costs associated with this option. See Notes 3 and 6 above.

WELDERS - Receive rate prescribed for craft performing  
operation to which welding is incidental.  
=====

Unlisted classifications needed for work not included within  
the scope of the classifications listed may be added after  
award only as provided in the labor standards contract clauses  
(29CFR 5.5 (a) (1) (ii)).

-----  
In the listing above, the "SU" designation means that rates  
listed under the identifier do not reflect collectively  
bargained wage and fringe benefit rates. Other designations  
indicate unions whose rates have been determined to be  
prevailing.  
-----

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can  
be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

operation to which welding is incidental.  
=====

Unlisted classifications needed for work not included within  
the scope of the classifications listed may be added after  
award only as provided in the labor standards contract clauses  
(29CFR 5.5 (a) (1) (ii)).  
-----

In the listing above, the "SU" designation means that rates  
listed under the identifier do not reflect collectively  
bargained wage and fringe benefit rates. Other designations  
indicate unions whose rates have been determined to be  
prevailing.  
-----

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can  
be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on  
a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests  
for summaries of surveys, should be with the Wage and Hour  
Regional Office for the area in which the survey was conducted  
because those Regional Offices have responsibility for the  
Davis-Bacon survey program. If the response from this initial  
contact is not satisfactory, then the process described in 2.)  
and 3.) should be followed.

With regard to any other matter not yet ripe for the formal  
process described here, initial contact should be with the  
Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U. S. Department of Labor

200 Constitution Avenue, N. W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====  
END OF GENERAL DECISION
